Comment

Operator has performed interim reclamation; however, interim areas consist mostly of annual, weedy Kochia vegetation which is not reflective of reference areas. Refer to the attached inspection photos.

Corrective Action

Perform reclamation in accordance to Rule 1003 for the interim areas. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until the location meets Rule 1003 standards. Operator shall submit a Form 4 Interim Reclamation Complete notice when the location meets Rule 1003 standards. COGCC may conduct inspections prior to receiving said notice to ensure compliance with Rule 1003.

The corrective date is the date the location was observed out of compliance.
