Soil samples will be collected for laboratory analysis of Table 915-1 parameters from areas most likely to have been impacted with exploration and production (E&P) waste. Visual inspection and field screening will be conducted in areas surrounding the tank battery, separator, on-location, and off-location flowline(s).

#### Proposed Groundwater Sampling

☒ Will groundwater samples be collected as part of this investigation? ( Number, analyses, and locations of samples ):

If groundwater is encountered during decommissioning and removal of the tank battery, grab groundwater sample(s) will be collected and submitted for laboratory analysis of Table 915-1 parameters.
