Dear Mr. Rouse:

Your letter of March 12, 1991 regarding J.W. Gibson's Application for Permit to Drill (APD) the No. 1-9 State of Colorado well has been received. This APD was received on January 10, 1991 and because waivers for the exception location had not been included, was not immediately approved. On February 11, 1991 the waiver letters were received and the APD was then approved the morning of February 12, 1991. The APD was in compliance with Rule 318 and thus was correctly approved. When the application for spacing was received later in the day on February 12, 1991, the APD was found to also be in compliance with the location for wells as outlined in the application. Therefore, the Commission believes that there are no grounds upon which to rescind the APD.

Please contact me if I can be of further assistance in this matter.

Sincerely,

Patricia C. Beaver  
Technical Secretary
