TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment:

It appears the location/facilities are in the pre-abandonment process as above ground equipment has been removed; though unmarked risers are still in place. Operator submitted Form 27 Initial (Doc #403221158) stating, under the Reclamation Plan section, that final reclamation will be performed once the State 36-16 well is plugged and abandoned. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management. Operator shall submit a Form 4 Final Reclamation Complete notice when the location meets Rule 1004 standards. COGCC may conduct inspections prior to receiving said notice to ensure compliance with Rule 1004.

Corrective Action:

Date

Overall Final Reclamation

Well Release on Active Location ☐Multi-Well Location ☐**Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment:

During this inspection, it was observed that rill eorsion is occuring near the former pit location; snow cover prevented full observation of stormwater travel and BMPs. Staff is unsure if any BMPs are present to prevent sediment laden stormwater from exiting off location (e.g. outside of fenced area). Refer to attached inspection photos for documentation.

Corrective Action:

Install or repair required BMPs per Rule 1002.f.(2)C.

Date: 03/16/2023

Pits: ☐ NO SURFACE INDICATION OF PIT
