General Comment:

This is a joint inspection with CDPHE Water Quality Control Division. CDPHE was conducting a compliance evaluation inspection of Confluence DJ LLC locations and COGCC staff attended. COGCC will not issue any corrective actions that would also be a corrective action for CDPHE.

The below are potential observations being addressed by the CDPHE.

1. Oil and grease observed on the ground
2. Construction materials waste outside of containment
3. Concrete waste spoils outside of containment
4. Hazardous materials and waste not stored in a manner that minimizes exposure to stormwater
5. Straw wattle BMP has not been maintained

Comment

Operator has performed interim reclamation to reduce disturbance areas only needed for production operations. Desirable germination was observed and in process of establishment; however, the southern perimeter of location has weed establishment. Refer to Photo 1.

Corrective Action

Comply with Rule 606.c. to keep the location free of all undesirable plant species. Note- it is COGCC's expectation that some of these areas will be reseeded with perennial vegetation that would out compete the weeds and it also serves to stabilize the soils. Since reseeding is a potential option, COGCC is allowing for favorable environmental conditions to reseed but it shall be completed as soon as possible but no later than May 1, 2023.

Date 05/01/2023Overall Interim Reclamation Fail**Final Reclamation/ Abandoned Location:**
