General Comment:

This is an orphaned well inspection with emphasis on stormwater controls and reclamation status. Inspection to evaluate surface conditions only As the well is part of Orphaned Well Program all other open/required tasks for well/location abandonment remain open until completed and closed.

With no current operator corrective actions from previous field inspections have not been performed. Previous corrective actions will be evaluated and may be converted into well abandonment task. Tasks will be prioritized and completed as part of well abandonment. Due to location conditions and with no operator to provide assistance this inventory is informational only and may not identify all flowlines and risers.

See link at end of report for path to downloadable photo log.

Reclamation - Storm Water - Pit**Interim Reclamation:**

Date Interim Reclamation Started: _____ Date Interim Reclamation Completed: _____
