Comment: [A reclamation variance of order #210400057 has been approved. The access road, location, and pit remain per approved variance. There are areas along the road side and at the pit that are not stabilized and have not established perennial vegetation. It appears noxious weed control was performed however, there is an area inside the pit where noxious weeds were not controlled. Observed Canada thistle and Houndstongue in this area. Additional reseeded for stabilization and weed control will need to be performed.](#)

Corrective Action: Comply with Rule 1004 for stabilization and noxious weed control.						Date: 07/20/2023
