Morris,

Here is the reclamation procedure / contract for the Gasaway Unit #10-3 bond claim job. Ed Dimatteo was waiting for it and it is very similar to the other ones we've used. I would like to give it to MB Construction for execution and wanted someone to look it over prior to release. Thanks!

Jaime

FY 99-6

Reclamation Procedure – Gasaway Project  
American Resources bond claim  
Gasaway Unit #10-3  
SESE, SEC 10, T6S, R100W  
API# 045-06225

Well is plugged. Location has not been reclaimed. Reserve pit is still present but dry and partially filled in. soil and rocks are piled on west edge of location. Location is remote and access is difficult. Work must be completed before July 1, 1999.

1. Notify surface landowner at least 14 days prior to beginning operation.
2. Operations must be witnessed by COGCC. Notify COGCC NW Area Engineer Jaime Adkins at least 48 hours before move in at (970) 858-7521.
3. Remove any debris and all deadmen present. Backfill reserve pit with stockpiled material on location. Recontour location to natural grade and reseed in accordance with OGCC specifications.

I hereby offer to perform the above work for a total cost of: \_\_\_\_\_
