COGCC Comments

Comment	User	Date
Grading activities as the only BMP is not sufficient to stabilize the road. BMP's along the steep road must be selected based off site-specific conditions and must be implemented in accordance with good engineering practice. Corrective action will remain out of compliance until completed.	sanchezcc	10/26/2023
Install or repair required BMPs per Rule 1002.f.(2)
