1003 f. Weeds Noxious weeds? _____ F _____

Comment Final relamation is not progressing towards 1003 vegetation standards. Perform reclamation per Rule 1004. Establish vegetation with total perennial, non-invasive uniform plant cover of at least 80 percent of reference area levels. Use surface owner seed mixture, or one prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage the site. Vegetation in fianl area are predominantly undesirable species (Kochia, Russian thistle). Weeds are impeding the perennial vegetation. See good house keeping.

Corrective Action Comply with Rule 1003 The corrective date is not intended to be the date for which the Operator shall complete the corrective actions but rather the corrective date is the date the location was observed out of compliance.
